

IST INTECH Ltd Announces Promotion of James Watts to Principal Production Engineer

Banbury, UK – January 2026 – IST INTECH Ltd, a global leader in UV curing and printing solutions, is delighted to announce the promotion of **James Watts** to the position of **Principal Production Engineer**.

James has been an integral part of IST INTECH’s engineering team, demonstrating outstanding technical expertise and a commitment to excellence in production processes. His new role reflects the company’s ongoing investment in **internal growth and career development**, reinforcing its focus on fostering talent and strengthening leadership from within.

In his new position, James will play a pivotal role in driving improvements across the company’s manufacturing operations, ensuring that IST INTECH continues to deliver high-quality, innovative solutions to its global customer base.

Simon Roberts, Managing Director of IST INTECH Ltd, said:

“We are incredibly proud to recognise James’ contributions to IST INTECH with this well-deserved promotion. His deep technical knowledge, dedication, and leadership embody the values we champion as we continue to grow. We look forward to his continued impact on our production excellence and innovation.”

This promotion underscores IST INTECH’s commitment to nurture and develop talent within the organisation, supporting both individual careers and the company’s long-term success.

About IST INTECH Ltd

IST INTECH Ltd is a market leader in UV LED and UV lamp innovation, delivering high-performance curing solutions designed and manufactured in-house to meet bespoke industrial requirements. Founded in 2000 as Integration Technology, the company has pioneered UV arc and LED technologies for inkjet printing and expanded into a broad portfolio of advanced UV curing systems serving customers worldwide.

Serving several key print and industrial sectors and continuing to spearhead growth into new markets through cutting-edge UV LED technology. The IST INTECH philosophy is built on a robust knowledgebase for a consultative, collaborative approach with prestigious partners, positioning the business as the UV LED solutions provider of the future.
